

### *Structure and development*

Due to the Corona pandemic, it was not possible to meet in person.

We had several meetings online:

January 24 from 10 to 11 a.m.

February 28 from 10 to 12 a.m.

March 7 from 10.30 to 12.30 a.m.

March 28 from 10 to 12 a.m. April 25 from 10 to 12 a.m.

May 30 from 10 to 12 a.m.

April 25 from 10 to 12 a.m.

May 30 from 10 to 12 a.m.

July 4 from 10 to 12 a.m.

August 1 from 10 to 12 a.m.

September 5 from 10 to 12 a.m.

October 3 from 10 to 12 a.m.

November 14 from 20. to 22 p.m.

December 5 from 20. to 22. p.m..

Within the board there were no changes in 2021

We spoke about the next conference and made a program in concept and decided the topics. Also we choose the speakers and made invitations in concept, and send out an "safe-the-date" mail.

We spoke about funding and our financial status. We applied for several donations. But we got a minimal response.

We explored more ways to get money for the next conference.

We discussed the future of the network, since some board members will not stand again in the next assembly meeting.

### *Homepage*

Work on our homepage continues. The construction of the page and our web host is in the hands of the family Bressel (in Germany). The translation in other languages is still in progress. Our Facebook page proves to be a very useful communication aid between all the European members and also with the American 11q Network.

### *Our Scientific Advisors*

All researchers are still committed to the network. They continue to do several research on different topics. Some results are already published on the website and on Facebook.

We also collaborated with the Erasmus University Hospital to set up new research about blood platelets.

### *Finances*

This year there was mainly income in the form of several small donations which amounted to 687€. The membership fees of 740€ were slightly higher, but unfortunately still do not correspond to our number of members, so that we have to continue to work on the reminders to our members.

On the other hand, the association only had expenses of 88€, so that in total we still had a good plus.

The work of the board took place via video conferencing, which meant that the association did not incur any further costs.

We decided that this time we have enough money to organize a conference. People attending the conference do not have to pay extra for childcare this time and all attendees get a discount. The Attendee with the chromosome 11 defect is free of charge. Also the attending board members are free of charge for this upcoming conference.

### *The Board*

Gesa Bressel, President

Nina Kiventidou

Camille Raguin

Olivier Raguin

Kerstin Rabe

Gero Bressel, Treasurer

Bockenem, Germany
